

**Supplementary Figure S1.** Body weight change curve of mice injected with Pdots, Pdots@SH, Pdots@COOH and Pdots@NH<sub>2</sub> by tail vein at different time points.

**Supplementary Figure S2.** Hematoxylin and eosin-stained images of major organs including the heart, liver, spleen, lungs and kidneys from the Balb/c mice injected with Pdots, Pdots@SH, Pdots@COOH and Pdots@NH<sub>2</sub> at 7 days.

**Supplementary Figure S3.** Hematoxylin and eosin-stained images of major organs including the heart, liver, spleen, lungs and kidneys from the Balb/c mice injected with Pdots, Pdots@SH, Pdots@COOH and Pdots@NH<sub>2</sub> at 15 days.
