

## MDMs

**Figure S5: GO analysis of differentially expressed miRNAs targets in MDMs and PBMCs.**

- (A) GO functional annotation of differentially expressed miRNAs predicted target genes, including biological process, cellular component and molecular function in HIV-1 infected MDMs.
- (B) GO functional annotation of differentially expressed miRNAs predicted target genes, including biological process, cellular component and molecular function in HIV-2 infected MDMs.
- (C) GO functional annotation of differentially expressed miRNAs predicted target genes, including biological process, cellular component and molecular function in HIV-1 infected PBMCs.
- (D) GO functional annotation of differentially expressed miRNAs predicted target genes, including biological process, cellular component and molecular function in HIV-2 infected PBMCs.
