

Supplementary Information:

Supplemental Figure S1: T cell populations, survival and tumor development of CLL-transplanted OT1/OT2, OT1 Rag/OT2 Rag and WT mice.

Supplemental Figure S2: Depletion of T cells via pan B/CLL cell MACS isolation.

Supplemental Figure S3: Endogenous T cell expansion in peripheral blood and spleen after CLL transplantation.

Supplemental Figure S4: BCR analysis of CLL transplanted mice.

Supplemental Figure S5: PD1 expression based on flow cytometry, FACS and RNA-Seq analysis.

Supplemental Table S1: Differentially expressed genes ($\text{frd} < 0.05$) from Volcano plots.
