| IFNGR1 | cytoplasm | Tris/EDTA (pH 9.0)            | 1:50  | Sc28363, RRID:AB_673491 | Santa Cruz Biotechnology, Dallas, Texas, USA | Monoclonal | DAB |
| IFNGR1 | cytoplasm | Citrate buffer (10mM, pH 6.0) | 1:100 | Ab134070                | Abcam, Cambridge, UK                         | Monoclonal | DAB |

**Supplemental figure**

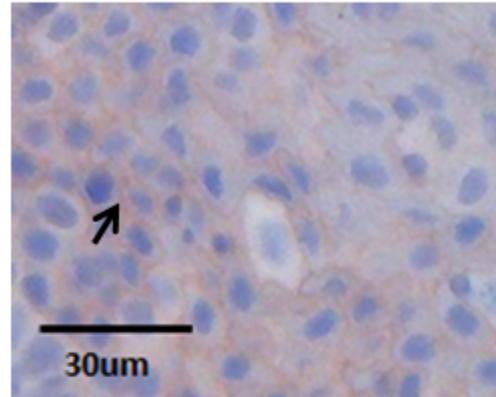

**Supplementary Fig. S1** The IHC staining intensity score of esophagus epithelial cells. No IHC positive staining is scored as 0. Score 1 means weak IHC staining. Score 2

means moderate staining intensity. Score 3 means strong staining intensity.
