

Figure S1. Analysis of two T-DNA insertional lines of *AtOXC* gene. **(A)** Diagram indicates the first allele (Salk_142717) and the second allele (SAIL_343_D06) of *AtOXC* T-DNA insertional lines. Arrows indicate the genotyping PCR primers. **(B)** PCR genotyping of Basta resistant individual plants of T3 SAIL_343_D06 line, showing all individual plants carry both T-DNA insertion and WT allele.
