<i>Polr2a</i>	Mm00839493_m1

**Figure S1.** Body weight, Liver and spleen weights, and serum lipids profile on Day 0. Mice were fed a NASH or 7KC diet for three weeks, and samples were collected on Day 0. **(A)** Body weight. **(B)** Liver and spleen weights. **(C)** Serum lipid profile Results are presented as mean  $\pm$  SD, and  $p$ -values were calculated using Student's  $t$ -test. \*  $p < 0.05$ , Control vs. 7KC.  $n = 6$ , Control;  $n = 6$ , 7KC.

**Figure S2.** RNA sequence analysis of *Abcg1* in liver on Day 0.
