

Supplementary figures

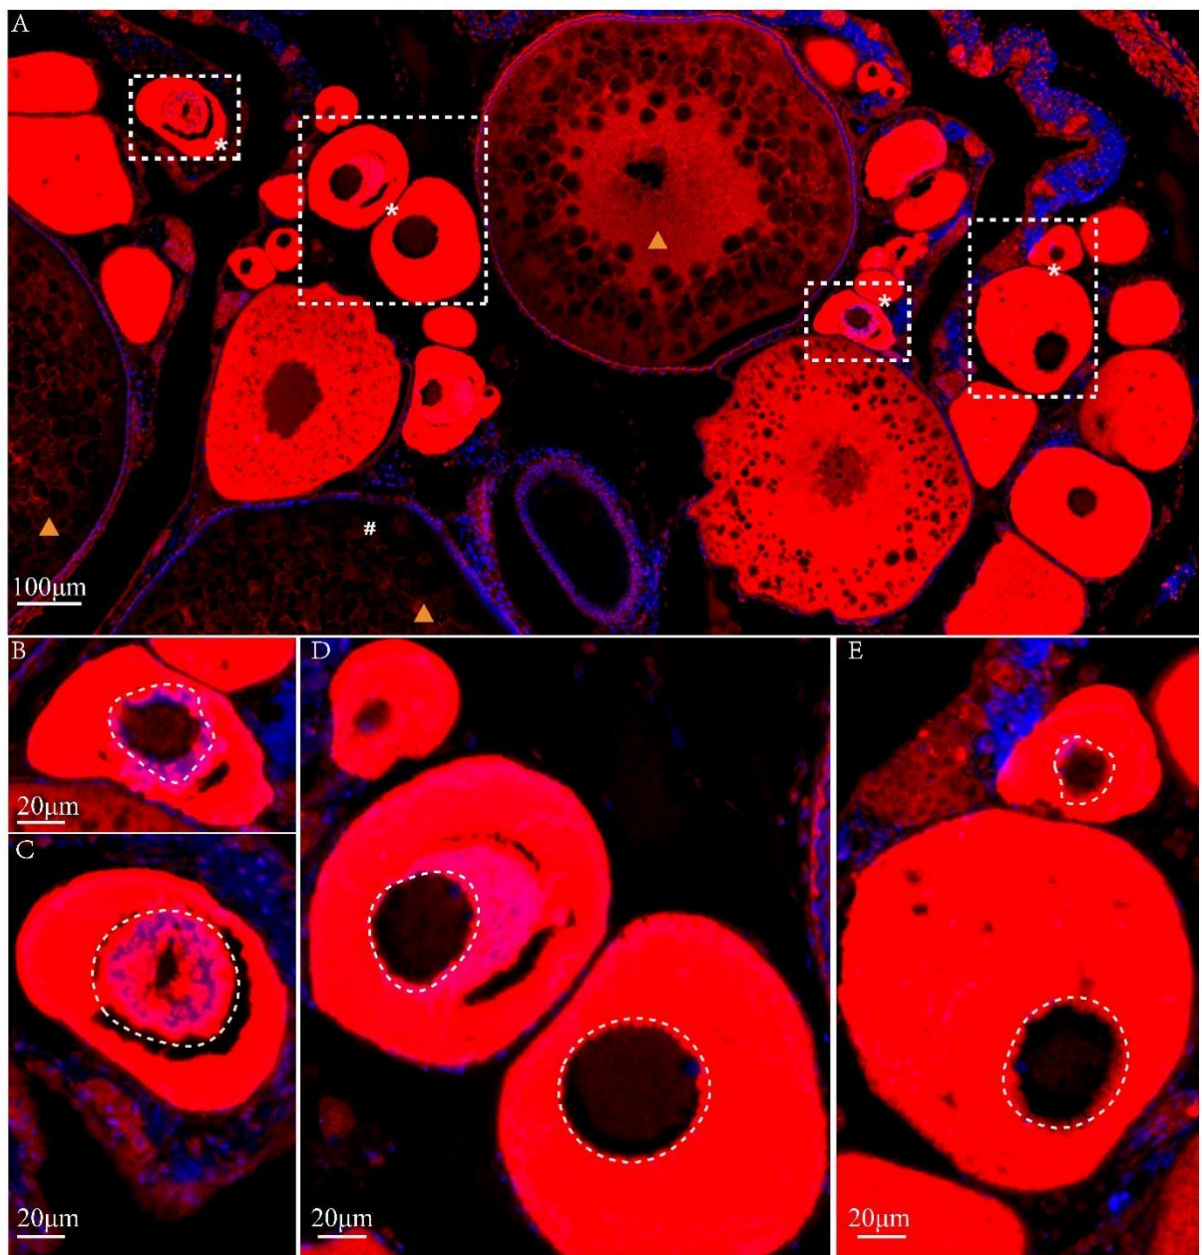

Figure S1. (A) Colocalization of immunofluorescent FoxH1 in EV *Monopterus albus* ovaries. (B–E) are the dotted boxes in Figure S1A. Nuclei are labeled with DAPI (blue). Asterisk (*), primary growth oocytes (PGOs); pound (#), cortical alveoli stage oocytes (CAOs); triangle (△), early vitellogenic-stage oocytes (EVOs).

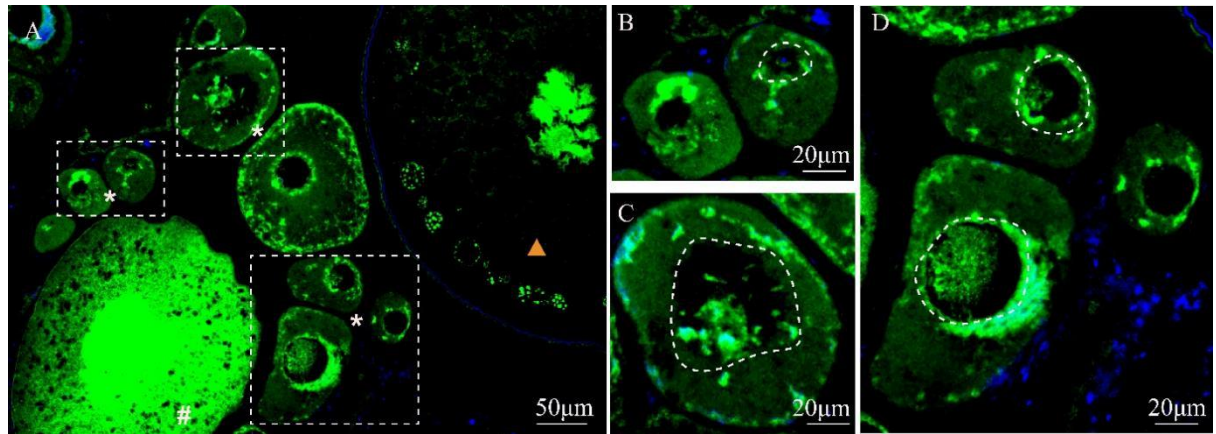

Figure S2. (A) Colocalization of immunofluorescent Cyp19a1a in EV *Monopterus albus* ovaries. (B–D) are the dotted boxes in Figure S2A. Nuclei are labeled with DAPI (blue). Asterisk (*), primary growth oocytes (PGOs); pound (#), cortical alveoli stage oocytes (CAOs); triangle (Δ), early vitellogenic-stage oocytes (EVOs).
