

Supplementary Figures

Supplementary Figure S1. The annotation maps of *Epipogium roseum* plastomes. The darker gray in the inner circle corresponds to GC content. The two inverted repeat and two single-copy regions are indicated outside of GC content.

Supplementary Figure S2. The annotation maps of the *E. roseum* mitogenome.

Supplementary Figure S3. The original contigs of *E. roseum* mitogenome exhibited a pattern of 'fireworks' used short reads.
