

Supplemental Figure S2. Validation of a magnetic bead-conjugated anti-GFP antibody for immunoprecipitation of astrocytic EGFP-RPL10a. Representative immunoblot probed with anti-GFP antibody of brain lysates expressing *EGFP/Rpl10a* (RiboTag +; lanes 2 and 4) or littermate controls (RiboTag -; lanes 1 and 3) following magnetic immunoprecipitation using control IgG (IgG IP; lanes 1 and 2) or anti-GFP (GFP IP; lanes 3 and 4). –
