

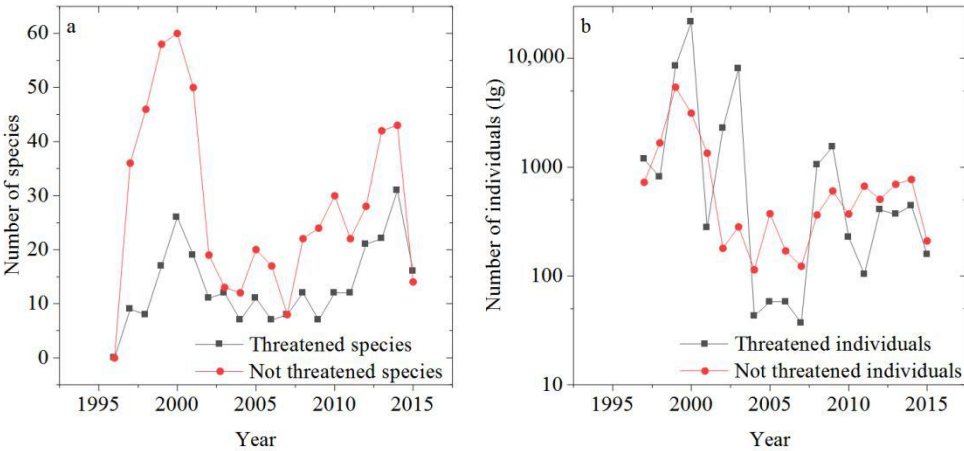

**Figure S1.** Percentage of threatened species imported into China (1996~2015), grouped by taxonomic class. IUCN Red-list status: extinct in the wild (EW), critically endangered (CR), endangered (EN), vulnerable (VU), near threatened (NT), least concern (LC), data deficient (DD), and not evaluated (NE).

**Figure S2.** Annual variation in the number of threatened species (a) and individuals (b) in China (1996-2015). Note the primary y axis scale in (b).

**Table S1.** List of duty-free imported wild animals (1996~2015) in China.
