As a new or re-entering student, you are subject to a State legislated pre-matriculation immunization which requires that you provide UNO with your immunization status regarding MEASLES, RUBELLA, DIPHTEHRIA, and TETANUS, in addition a MENINGOCOCCAL immunization. The Proof of Immunization Compliance is on the other side of this sheet.

The following is a summary of the guidelines of the Louisiana State Health Department:

1. **Diphtheria-Tetanus (DT)** immunizations in the last ten years.
2. If you were born **on or after** January 1, 1957, two **measles-mumps-rubella** immunizations are needed.
 - 2.1 The first of these immunizations must be given after 1967, after your first birthday, and given with or without gamma globulin. The second must be given at least 30 days later.
 - 2.2 If you had the disease, one of two proofs is necessary:
 - a. A blood test, called a titer, which shows immunity to the disease.
 - b. The signature of the physician who attended you when you were treated for the disease.
3. If you were born **before** 1957, there is no **measles-mumps-rubella** requirement.
4. If you were born **before** 1957, the **diphtheria-tetanus** requirement still applies.
5. A **meningococcal** immunization in the last four years.
