

Supplementary Data

Figure S1. SARS-CoV-2 Mpro, PLpro and Human Cathepsin L activities against the compounds with and without 1mM of DTT.

A Screening of drug candidates against TMPRSS2

B Screening of drug candidates against Thrombin

Figure S2. Counter-screening on Disulfiram and selected thiuram disulfide compounds at 0.1, 1, 10, 100 μ M against 1 nM and 10 nM of (A) TMPRSS2 and (B) Thrombin, respectively.
