

Supplementary Figure S4. *M. communis* leaf extract induces apoptosis. The representative fluorescent images of control and *M. communis* leaf extract-treated cancer cell lines MCF-7, HepG2, HCT116, and HeLa. The cells were treated for 48 hours and stained with AO/EB. Yellow arrow: live cell, pink arrow: early apoptotic, red arrow: necrotic, and blue arrow: late apoptotic. Scale bar: 20 μ m.
