

## SUPPLEMENTARY MATERIALS

**Table S1.** Histopathological report of OPMDs and their frequency

OPMDs	No. of lesions
Mild epithelial dysplasia	134
Oral Lichen/Lichenoid planus	62
Moderate epithelial dysplasia	40
Severe epithelial dysplasia	18
Hyperkeratosis	11
Acanthosis + Hyperkeratosis	6
Lupus erythematosus	6
Acanthotic epithelium	4
Hyperplasia	4
Verrucous hyperplasia	4
Actinic cheilitis	3
Hyperplastic candidiasis	3
Submucous fibrosis	2
Hyperplastic and hyperkeratinized	1
TOTAL	298

**Table S2.** Histopathological report of non-OPMDs and their frequency

Non-OPMDs	No. of lesions
Fibroepithelial hyperplasia	76
Squamous papilloma	19
Giant cell fibroma	14
Pyogenic granuloma	10
Inflamed tissues	10
Candidiasis	7
Inadequate specimen	3
Verruca vulgaris	3
Vascular malformation	2
Ulcer	2
Pleomorphic adenoma	2
Venous malformation	2
Vascular leiomyoma	2
Traumatic neuroma	2
Vascular leiomyoma	1
Verruciform xanthoma	1
Oral melanotic macule	1
Epidermoid cyst	1
Lymphoepithelial cyst	1
Lingual tonsil hypertrophy	1

---

Granulation tissue	1
Radicular cyst	1
Schwannoma	1
Fibrous tissue and epithelium	1
Candida cheilitis	1
Traumatic ulcerative granuloma with stromal eosinophilia	1
Angiokeratoma	1
Intramucosal nevus	1
Epulis fissuratum	1
Intramuscular lipoma	1
Mucositis	1
Mucous membrane pemphigoid	1
Lipofibroma	1
Peripheral ameloblastic fibro-dentinoma	1
Cyst	1
Caliber-persistent artery	1
Neurofibroma	1
Oral mucosa	1
Mucocele	1
Superficial mucocele	1
Connective tissue	1
TOTAL	181

---
