

Supplementary Materials

EDS Results of Different Samples of Catalytic Converter giving the composition of the ceramic monolith

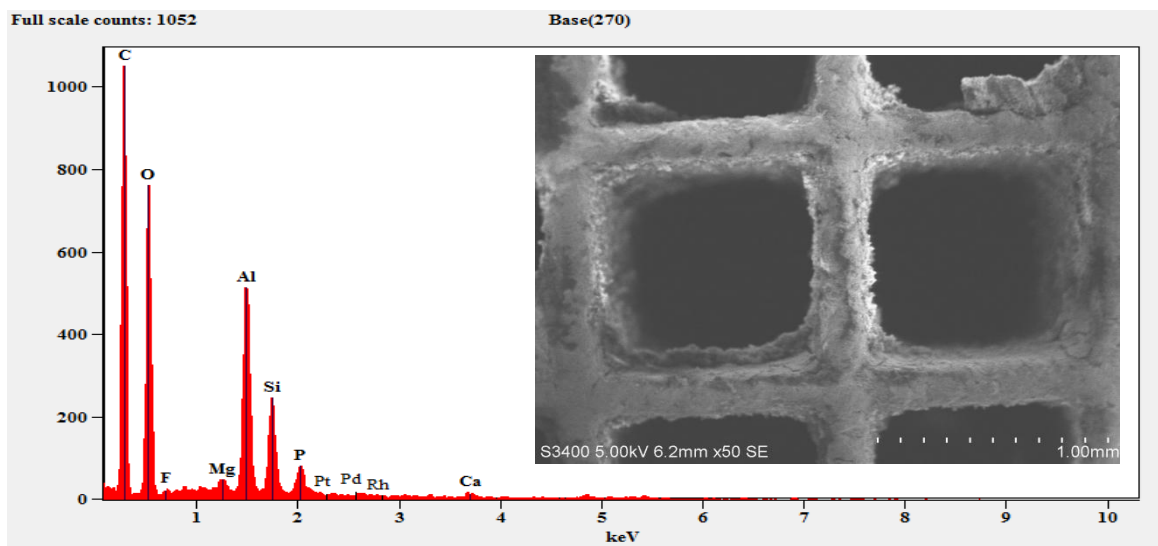

1. EDS peaks of new CC (sample 1), (Figure 3 in the article).

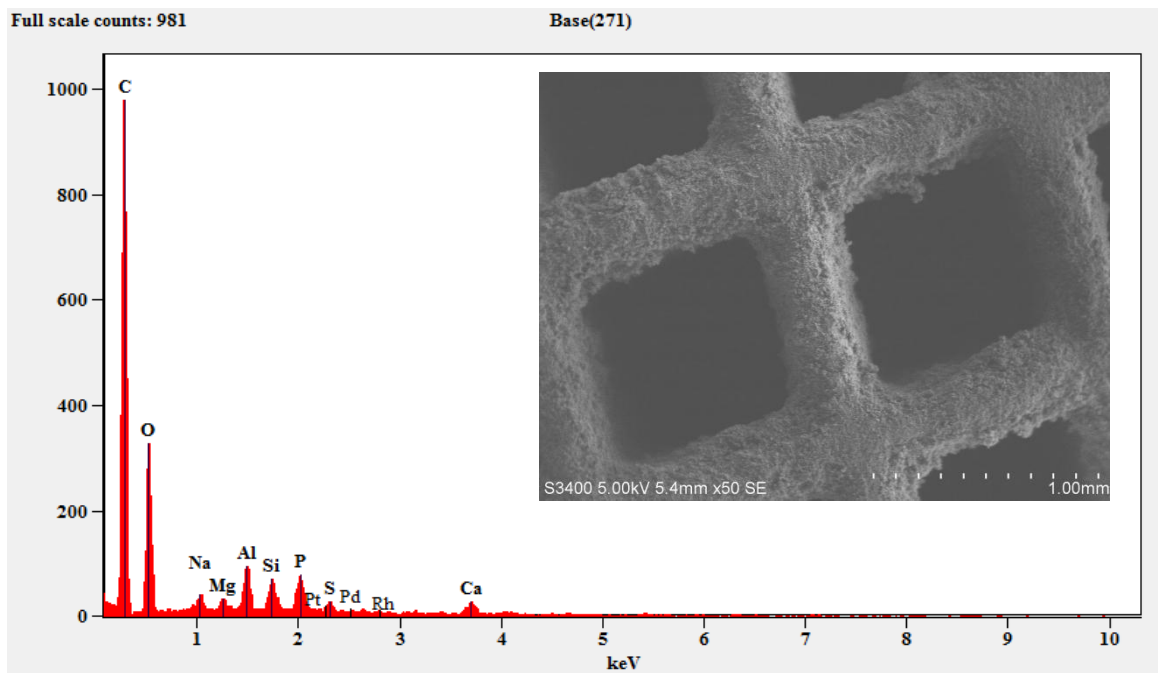

2. EDS peaks of Spent CC Engine side with diesel fuel (sample 2), (Figure 4 in the article).

3. EDS peaks of Spent CC exhaust side with diesel fuel (sample 3), (Figure 5 in the article).

4. EDS peaks of Spent CC Engine side with biodiesel fuel (sample 4), (Figure 6 in the article).

5. EDS peaks of Spent CC exhaust side with biodiesel fuel (sample 5), (Figure 7 in the article).
