The authors would like to make the following corrections to the published paper [1]:

- (1) One sentence in “Section 2.4. Environmental Subjective Norms” should be deleted.

The deleted sentence reads as follows:

Jäger [64] suggested that subjective norms encompass an individual’s understanding of behavior and perception of others’ opinions in specific situations.

- (2) Accordingly, the reference numbers in the reference list should also be updated. We have renumbered the references starting with [64].

With this correction, the order of some references has been adjusted accordingly. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
