

Supplementary S1. CD4+ T-cell profiles in the spleen and tumor microenvironment. Percentage of (a) CD4+ and (b) effector memory CD4+ T-cell population in spleen is plotted from each flow cytometry analysis. (c) Immunohistochemistry results for CD4+ T cells in the tumor microenvironment. *P < 0.05, **P < 0.01, ***P < 0.001, ****P < 0.0001, and ns = not significant. **Abbreviations:** CON, control; RT, radiation; PD-1B, PD-1 blockade.
