

Table S3. Relative growth index of healthy donors' MMSCs in the presence of serum of AA patients differing in the duration of the disease

Duration of the disease before treatment , months	1-6 (N=19)	7-8 (N=15)	9-43 (N=8)
Relative growth index	0.35 ± 0.02	0.37 ± 0.02	0.36 ± 0.05
