

Figure 2.

Figure S2.

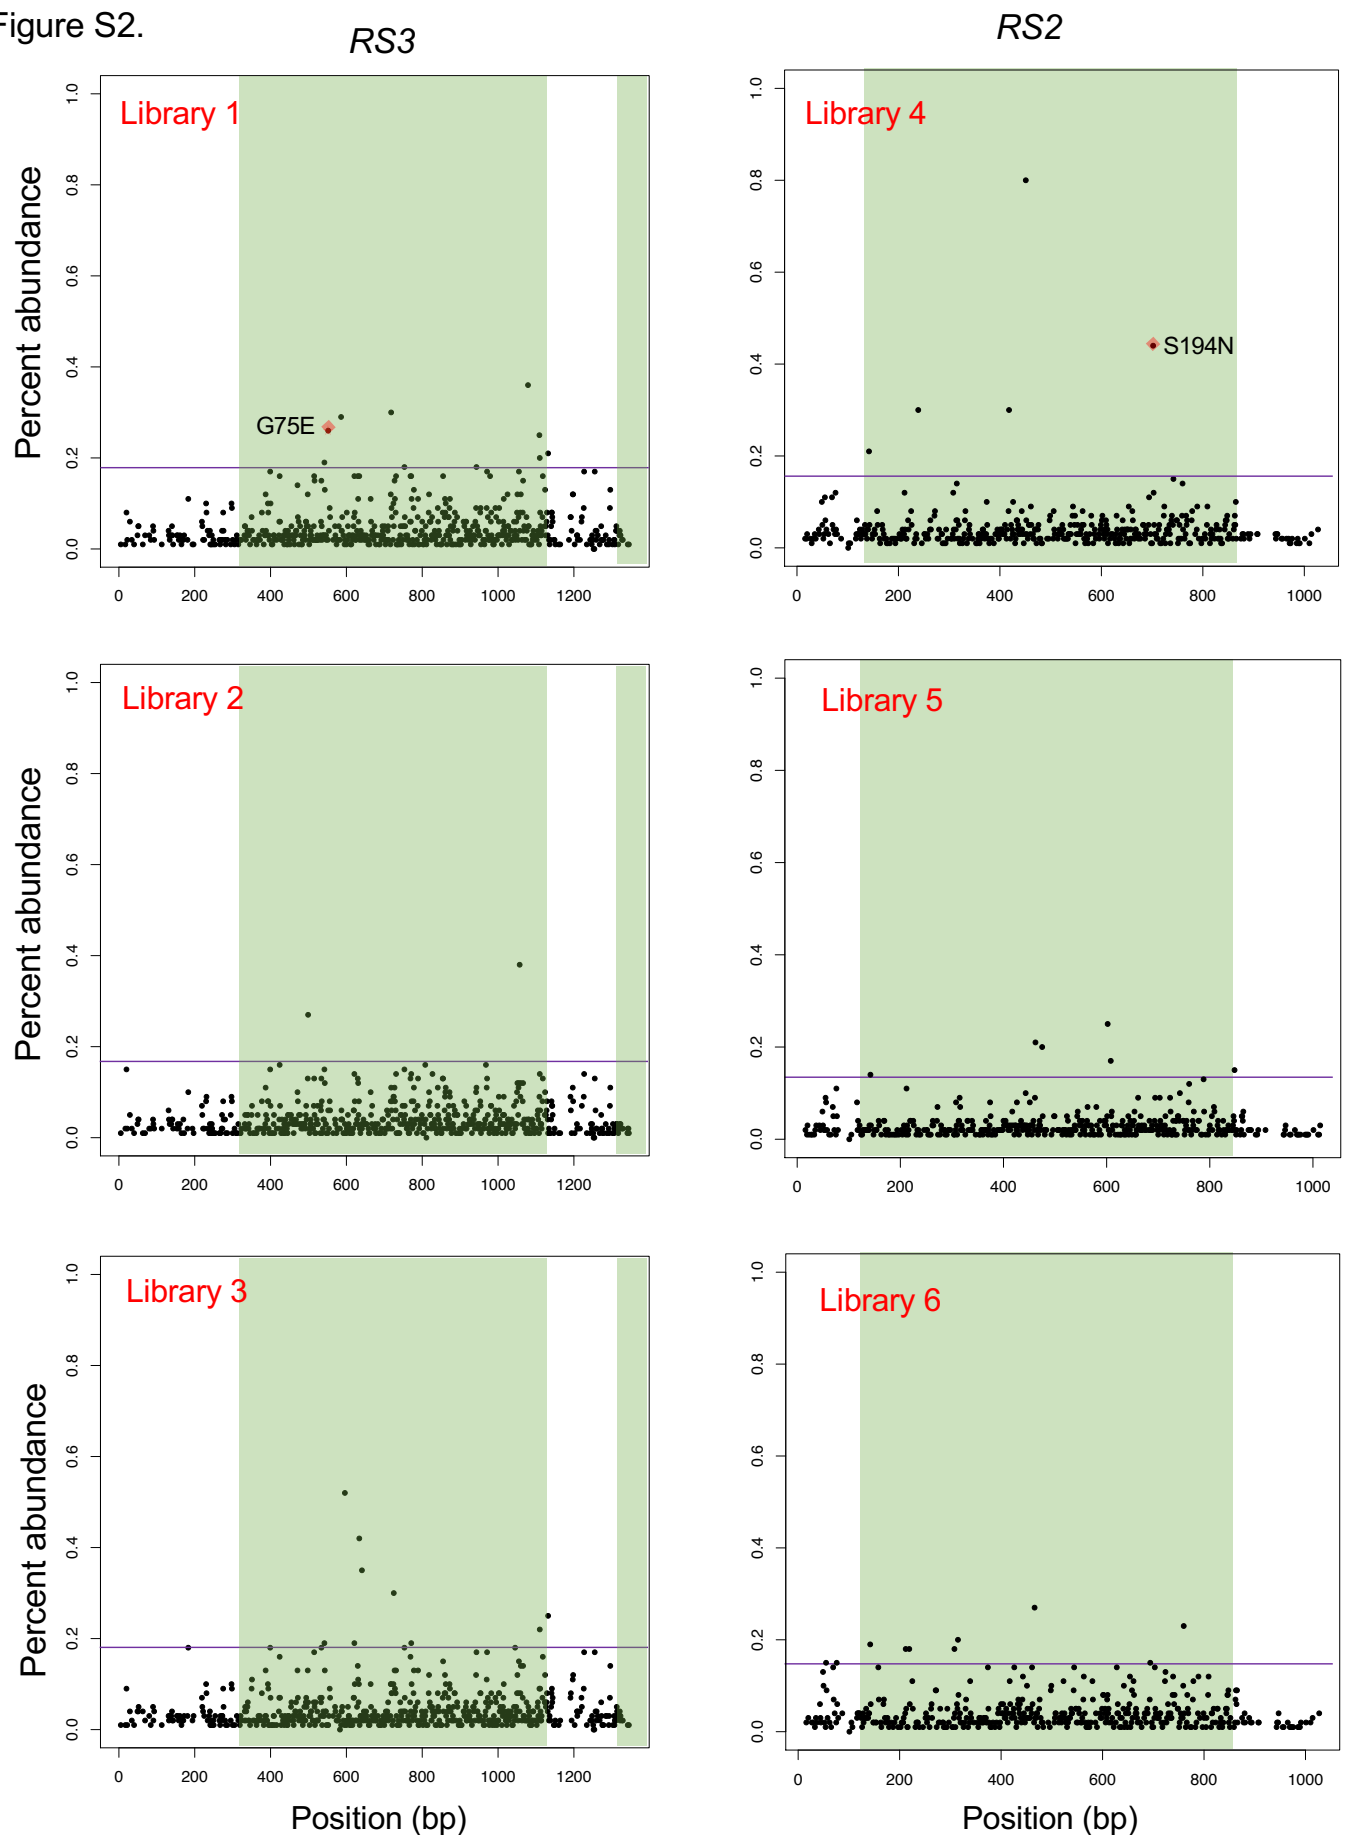

Figure S1. Polymorphisms in the RS2 and RS3 amplicon sequences

Abundance of G to A and C to T polymorphisms in RS2 and RS3 amplicon sequence in each of three libraries. Green shaded region indicates exon sequence, horizontal line marks a frequency of 0.15 selected as threshold. Highlighted are two validated sequence polymorphisms. Polymorphisms from PI200508 not shown, as these were not G to A or C to T changes.

Figure S3.
