Assessment of Nitrate in Wells and Springs in the North Central Ethiopian Highlands

*Adugnaw T. Akale, Mamaru A. Moges, Dessalegn C. Dagneu, Seifu A. Tilahun and Tammo S.
Steenhuis*

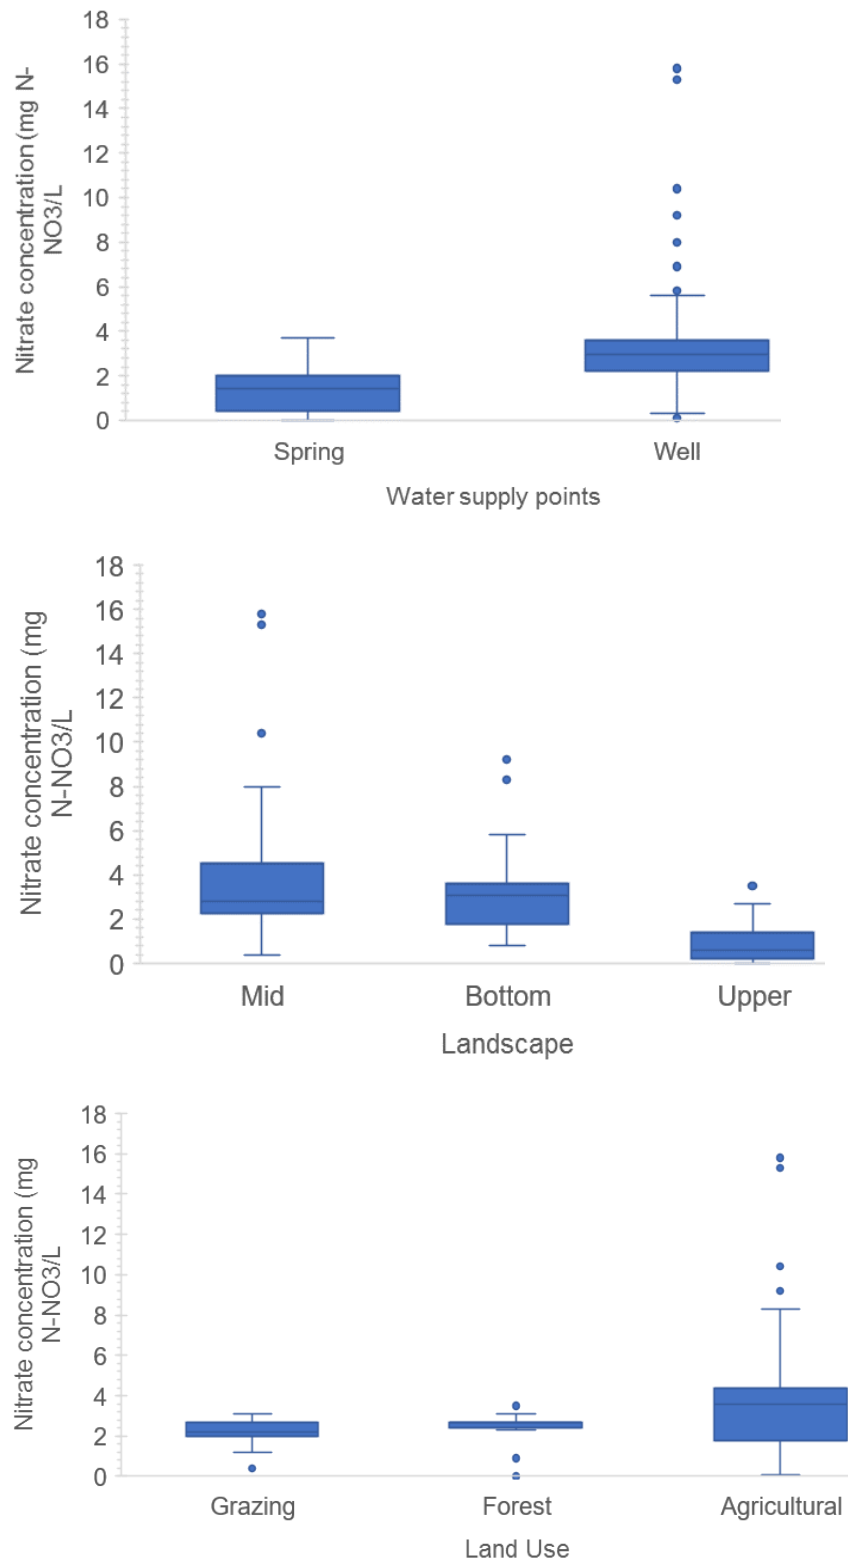

Figure S1. Boxplots of the nitrate concentrations in groundwater measured in developed springs and wells at three hillslope position and land use in the waterpoint drinking area in South Gondar Zone from December 2013 to June 2014

Table S1: Number of waterpoints sampled each month in the four woredas in South Gondar, Ethiopia

Woreda	December 2013	January 2013	February 2014	March 2014	April 2014	May 2014	June 2014
Farta	15	15	25	23			
Estie	6	10	10		20		
Dera		10		20			21
Andabite		10	10		10	8
