

## Correction Correction: Liu et al. Automatic Extraction for Land Parcels Based on Multi-Scale Segmentation. *Land* 2024, *13*, 158

Land Editorial Office

MDPI AG, St. Alban-Anlage 66, 4052 Basel, Switzerland; land@mdpi.com

The *Land* Editorial Office would like to make the following correction regarding the academic editor listed in this published paper [1]. The originally listed Academic Editor, Xuchao Zhu, has been removed and replaced with the Section Editor-in-Chief at *Land*, Nick B. Comerford.

Following the publication, concerns were brought to the attention of the Editorial Office regarding a potential conflict of interest between the authors of this article and the original Academic Editor.

Adhering to our procedure, an investigation was completed by the Editorial Office, which confirmed a recent collaboration between an author and the Academic Editor that could be perceived as a conflict of interest and was judged as not aligning with MDPI's conflict of interest policy relating to the handling of Special Issue submissions (https://www.mdpi. com/special\_issues\_guidelines).

The Editorial Office and the Editorial Board conducted a post-publication review of the article, which included a review of the peer process and of the final decision. The result of this review was that the peer-review was judged to be sound, and the accepted decision was considered to be appropriate. Consequently, the Editorial Office and the Editorial Board have decided that no revision of this article is necessary. However, the listed Academic Editor has been corrected.

The Editorial Office confirms that this change does not affect the scientific results. The original publication has also been updated.
