

Text S1. ANT CRAFT GUIDELINE

Supplies

- 2 Large Styrofoam balls
- 1 Small Styrofoam ball
- 6 large pipe cleaners
- 2 small pipe cleaners
- 2 toothpicks
- 2 googly eyes
- Optional: Extra pipe cleaners for wings and mandibles
- Optional: Extra toothpick for stinger

Directions

1. Use toothpicks to stick Styrofoam balls together to make the ant body: to make a classic ant shape, put the smaller ball between the 2 larger ones.
2. Stick the pipe cleaners into the balls to make antenna and legs: remember ants have 6 legs
3. Use glue to stick the googly eyes on.
4. Feel free to be creative: Ants come in all shapes and sizes!
5. What else do ants have? Do they fly? Do they carry food? What do they use for that?
