List of Supplementary Tables:

Table S1 *R. kratochvilovae* CCY 20-2-26 growing on various nitrogen sources with glucose as a C-source. Changes of concentration of glucose in the media with individual N-sources [g/L]

Table S2 *R. kratochvilovae* CCY 20-2-26 growing on various carbon sources with urea as N-source. Changes of concentration of individual sugars in the media [g/L].

Table S3 *R. kratochvilovae* CCY 20-2-26 growing on various carbon sources with potassium nitrate as N-source. Changes of concentration of individual sugars in the media [g/L].

Table S4 Total, α - and β -glucan content in *R. kratochvilovae* cells grown in glucose medium with diverse nitrogen sources

Table S5 Total, α - and β -glucan content in *R. kratochvilovae* cells grown at diverse carbon sources with urea as nitrogen source

Table S6 Total, α - and β -glucan content in *R. kratochvilovae* cells grown at diverse carbon sources with potassium nitrate as nitrogen source

List of Supplementary Figures:

Figure S1 Fatty acid composition of lipids produced by *R.kratochvilovae* (glucose medium; different N sources; 96 hour cultivation, C/N 70)

Figure S2 Distribution of carotenoid pigments produced by *R.kratochvilovae* (glucose medium; different N sources; 96 hour cultivation, C/N 70)

Figure S3 Fatty acid composition of lipids produced by *R.kratochvilovae* on different C sources (urea; 96 hour cultivation)

Figure S4 Fatty acid composition of lipids produced by *R.kratochvilovae* on different C sources (KNO₃; 96 hour cultivation)

Figure S5 Carotenoid pigment composition produced by *R.kratochvilovae* on different C sources (urea; 96 hour cultivation)

Figure S6 Carotenoid pigment composition produced by *R.kratochvilovae* on different C sources (KNO₃; 96 hour cultivation)

Figure S7 Fatty acid composition of lipids produced by *R.kratochvilovae* (mannose medium; different C/N ratio; 96 hour cultivation)

Figure S8 Distribution of carotenoid pigments produced by *R.kratochvilovae* (mannose medium; different C/N ratio; 96 hour cultivation)

Table S1 *R. kratochvilovae* CCY 20-2-26 growing on various nitrogen sources with glucose as a C-source. Changes of concentration of glucose in the media with individual N-sources [g/L]

	Cultivation time
