

Figure S1. Positioning of the fish tagged with AEFishBit in the tank with non-tagged Atlantic salmon.

Figure S2. (A) Latency time (sec.) to when fish showed interest in feed pellets was monitored on D1. Data is shown as means \pm SD. NS = Not significant. $N_C = 24$, $N_{LI} = 16$; $N_{HI} = 24$. (B) Proportion (%) of fish showing no interest in feed during observed period on D1.
