

**Table S3.** Single nucleotide polymorphisms analysis of *G. duodenalis* sequences at *tpi* locus.

Sequences	Nucleotide at position of reference sequence	No. of sequences
assemblage E	<b>298</b>	
EU189333	<b>G</b>	
PP754421-E33	.	7

Nucleotide substitutions are in bold and in capital letters, dots indicate identical to the references sequence.
