Table S4. Multilocus sequence genotyping of *G. duodenalis* based on the *tpi*, *gdh* and *bg* loci.

MLGs	Genotypes			NO. of samples
	bg	*gdh*	*tpi*	
MLG-E12	E35	E34	E33	**n=6**
-	E35	E34	-	n=5
-	E35	E53	-	n=1
-	E35	-	E33	n=1

NO. of samples successfully amplified at three loci and forming a MLG are in bold.
