

**Supplemental Table S1.** Audit trial of this scoping review.

Stage of the knowledge synthesis	Main Elements
<b>Searching references</b>	<p>Electronic databases searched: see Figure 1</p> <p>Journals and previous reviews hand-searched:</p> <ul style="list-style-type: none"> <li>• Journals: RBP Psychiatry; Aging and Mental Health; Hong Kong Journal of Occupational Therapy; Current Topics in Research</li> <li>• Previous reviews: Elfrink et al., 2018; Huang et al., 2015; Park et al., 2019; Rios Rincon et al., 2021; Woods et al., 2018; Yen &amp; Lin, 2018</li> </ul> <p>Date of literature search in each database:</p> <ul style="list-style-type: none"> <li>• AgeLine: 11/02/2021</li> <li>• APA PsycInfo: 11/02/2021</li> <li>• CINAHL Complete: 11/02/2021</li> <li>• ERIC: 11/02/2021</li> <li>• MEDLINE: 11/02/2021</li> <li>• Social Work Abstracts: 11/02/2021</li> <li>• Web of Science: 11/02/2021</li> </ul> <p>Keywords and MeSH terms used: see Table 1</p> <p>Number of references found in each database, journals, previous reviews, and included articles: see notes under Figure 1</p> <p>Authors that were contacted for additional references: none</p> <p>Number of references left after the removal of duplicates: 673</p>
	<p>Number of references left after the screening of titles and abstracts: 35</p> <p>Number of references left after the screening of the full-text assessment stage: 10</p> <p>Detailed reasons of exclusion for each reference at the full-text assessment stage: see Figure 1</p>
<b>Screening stage</b>	<p>Data extraction files: see Table 5</p> <p>Authors that were contacted for data validation or regarding missing data (as well as who responded): none</p>
<b>Data extraction stage</b>	<p>Number of articles included in the different syntheses conducted (e.g., qualitative synthesis quantitative synthesis): 4 quantitative, 4 qualitative, and 2 mixed methods</p>
<b>Data synthesis stage</b>
