

Figure S2.1 Kolmogorov-Smirnov Test assessing the distribution of “Age”

Figure S2.2 Kolmogorov-Smirnov Test assessing the distribution of “Number of medications”

Figure S2.3 Kolmogorov-Smirnov Test assessing the distribution of “Number of doses”

Figure S2.4 Kolmogorov-Smirnov Test assessing the distribution of “Number of adverse events”

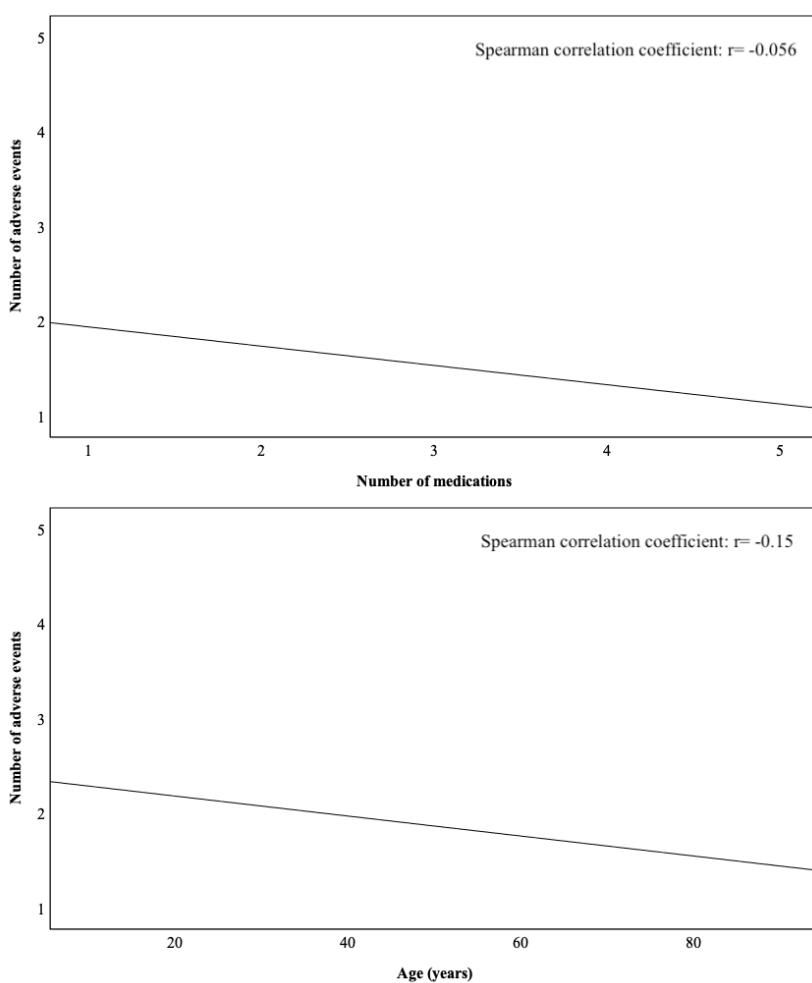

Figure S2.5 Spearman’s graphs of the correlation between number of adverse events and number of medications (upper graphs) and between number of adverse events and years of age (lower graph).
