

**Supplementary Materials S2.** SDT results for cases with significant dissociations between impaired famous face test (FFT) performance and intact CFPT and CFMT scores. The sequential Bonferroni correction is applied to correct for multiple comparisons.

Case	% Correct			FFT v CFPT			FFT v CFMT		
	CFPT	CFMT	FFT	<i>t</i>	<i>p</i>	% More Extreme	<i>T</i>	<i>p</i>	% More Extreme
