

Table S1. Individual rectal temperatures of piglets vaccinated with 10¹ (Group 1), 10² (Group 2), 10³ (Group 3) or 10⁴ (Group 4) TCID₅₀ of the C-DIVA vaccine, followed by challenge with wild-type CSFV (Brescia strain) 14 days after vaccination. One group of 4 piglets was mock-vaccinated. Temperatures between 40°C and 40.5°C are highlighted in red; Temperatures >40.5°C are highlighted in green.
