Table S1. Reasons to leave the study. The last visit attended is reported in brackets.

Twin Pregnancy (*n* = 9)	Singleton Pregnancy (*n* = 4)
3 fetal malformation/chromosomopathy (T1, T1, T1) 2 fetal loss (T1, T2) 1 HELLP syndrome and fetal loss (T2) 3 lost at follow-up (T1, T1, T1)	1 pre-eclampsia and IUGR (T2) 3 lost at follow-up (T1, T1)

HELLP, hemolysis elevated liver enzymes low platelet; IUGR, intrauterine growth restriction. Data are given as mean ± SD or n (%). The trend has the expression: $Y\_j = \beta\_0 + ⟦\beta\_1 t + \beta⟧\_2 t\_j^2$.
