In the original publication [1], there was a mistake in Figure 4 as published. The two sub-images in Figure 4b-Liver are the same due to an error in the data uploading process. The corrected Figure 4 appears below.

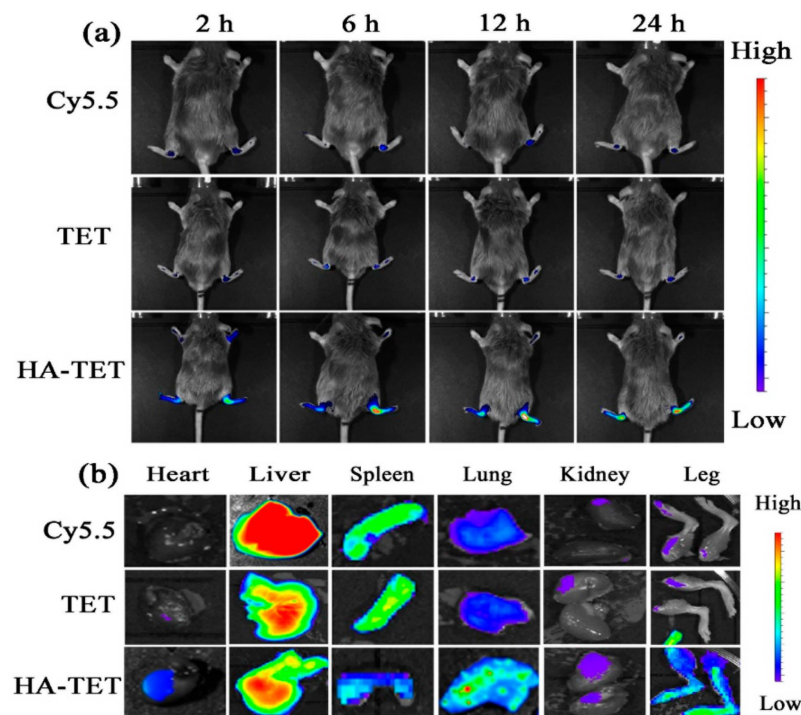

Figure 4. Living image of the CIA mice. (a) The overall view. (b) The image of each organ, such as the heart, liver, spleen, lung, kidney, and leg; ($n = 3$).

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
