

Table S1. Aqueous glucose levels and serum glucose levels before (20 mins) and after (60 mins) the intra-venous glucose challenge. Each rabbit had two observations.

Rabbit no.	Time (min)	Aqueous glucose (mg/dL)	Blood glucose (mg/dL)
1	20	169	191
	60	236	275
2	20	133	152
	60	171	204
3	20	127	152
	60	216	195
4	20	191	194
	60	253	217
