The *Coatings* Editorial Office retracts the article entitled “The Effect of Structural Phase Transitions on Electronic and Optical Properties of CsPbI<sub>3</sub> Pure Inorganic Perovskites” [1], cited above.

Following the publication, concerns were brought to the attention of the Editorial Office relating to the authorship and relevancy of references presented in this publication [1].

Adhering to our procedure, an investigation was conducted by the Editorial Office and the Editorial Board that confirmed that a significant portion of the literature cited was not sufficiently relevant to this publication and thus does not comply with MDPI’s Citation Policies ([https://www.mdpi.com/ethics#\\_bookmark20](https://www.mdpi.com/ethics#_bookmark20) (accessed on 8 May 2024)). Furthermore, following communications with the authorship group, the Editorial Office was unable to verify the accuracy of the originally listed authorship list. As a result, the Editorial Board has lost confidence in the integrity of the findings and has decided to retract this publication [1], as per MDPI’s retraction policy ([https://www.mdpi.com/ethics#\\_bookmark30](https://www.mdpi.com/ethics#_bookmark30) (accessed on 8 May 2024)) and in line with the Committee on Publication Ethics retraction guidelines (<https://publicationethics.org/retraction-guidelines> (accessed on 8 May 2024)).

This retraction was approved by the Editor-in-Chief of *Coatings*.

Author Afshin Davarpanah agrees with this retraction. The other authors did not provide a comment on this decision.
