Supplementary Figure S1

Supplementary Figure S2

Supplementary Figure S3

Color	sORF location	Description
Blue	5'-UTR	5'-UTR sORF, located in the 5' UTR region without exonic overlap
Green	Exonic	Exonic sORF, located completely in an exonic region
Orange	Intronic	Intronic sORF, located in an intronic region with or without exonic overlap
Purple	3'-UTR	3'-UTR sORF, located in the 3'-UTR region
Red	lncRNAs	lncRNAs, located in-between genes (intergenic)
