

Figure S2. Genomic organization of the *SUI1* and *PUI1* region of *B. rapa* Z1 (*yellow sarson*) identified from published genome sequence available in <https://brassicadb.cn> [31]. The arrow and arrowheads indicate the direction of transcription of each gene. The region corresponding to the genomic position 19,328,844 to 19,363,844 of A04 chromosome.
