

Table S3. Variance components in phenological traits of Spanish *Crocus* species.

Phenological traits*	Variance partitioning			
	Between species		Within species	
	%	<i>fd</i>	%	<i>fd</i>
Sprouting time	83.01	6	16.99	80
Leaf emergence	69.40	6	30.60	97
Flowering time	96.40	6	3.60	54
Leaf senescence	43.68	6	56.32	100

* Measured as the number of days between the date of planting (1st of August) and a certain stage.
