

Supplementary Material

Figure S1. Dose-response curves determined by the MTT assay 24, 48, and 72 hours following the treatment of cells with *J. communis* EO. Results were presented as mean \pm SD cytotoxicity percentages from three separate experiments.

Figure S2. Dose-response curves determined by the MTT assay 24, 48, and 72 hours following the treatment of cells with doxorubicin. Results were presented as mean \pm SD cytotoxicity percentages from three separate experiments.
