

Supplementary Materials

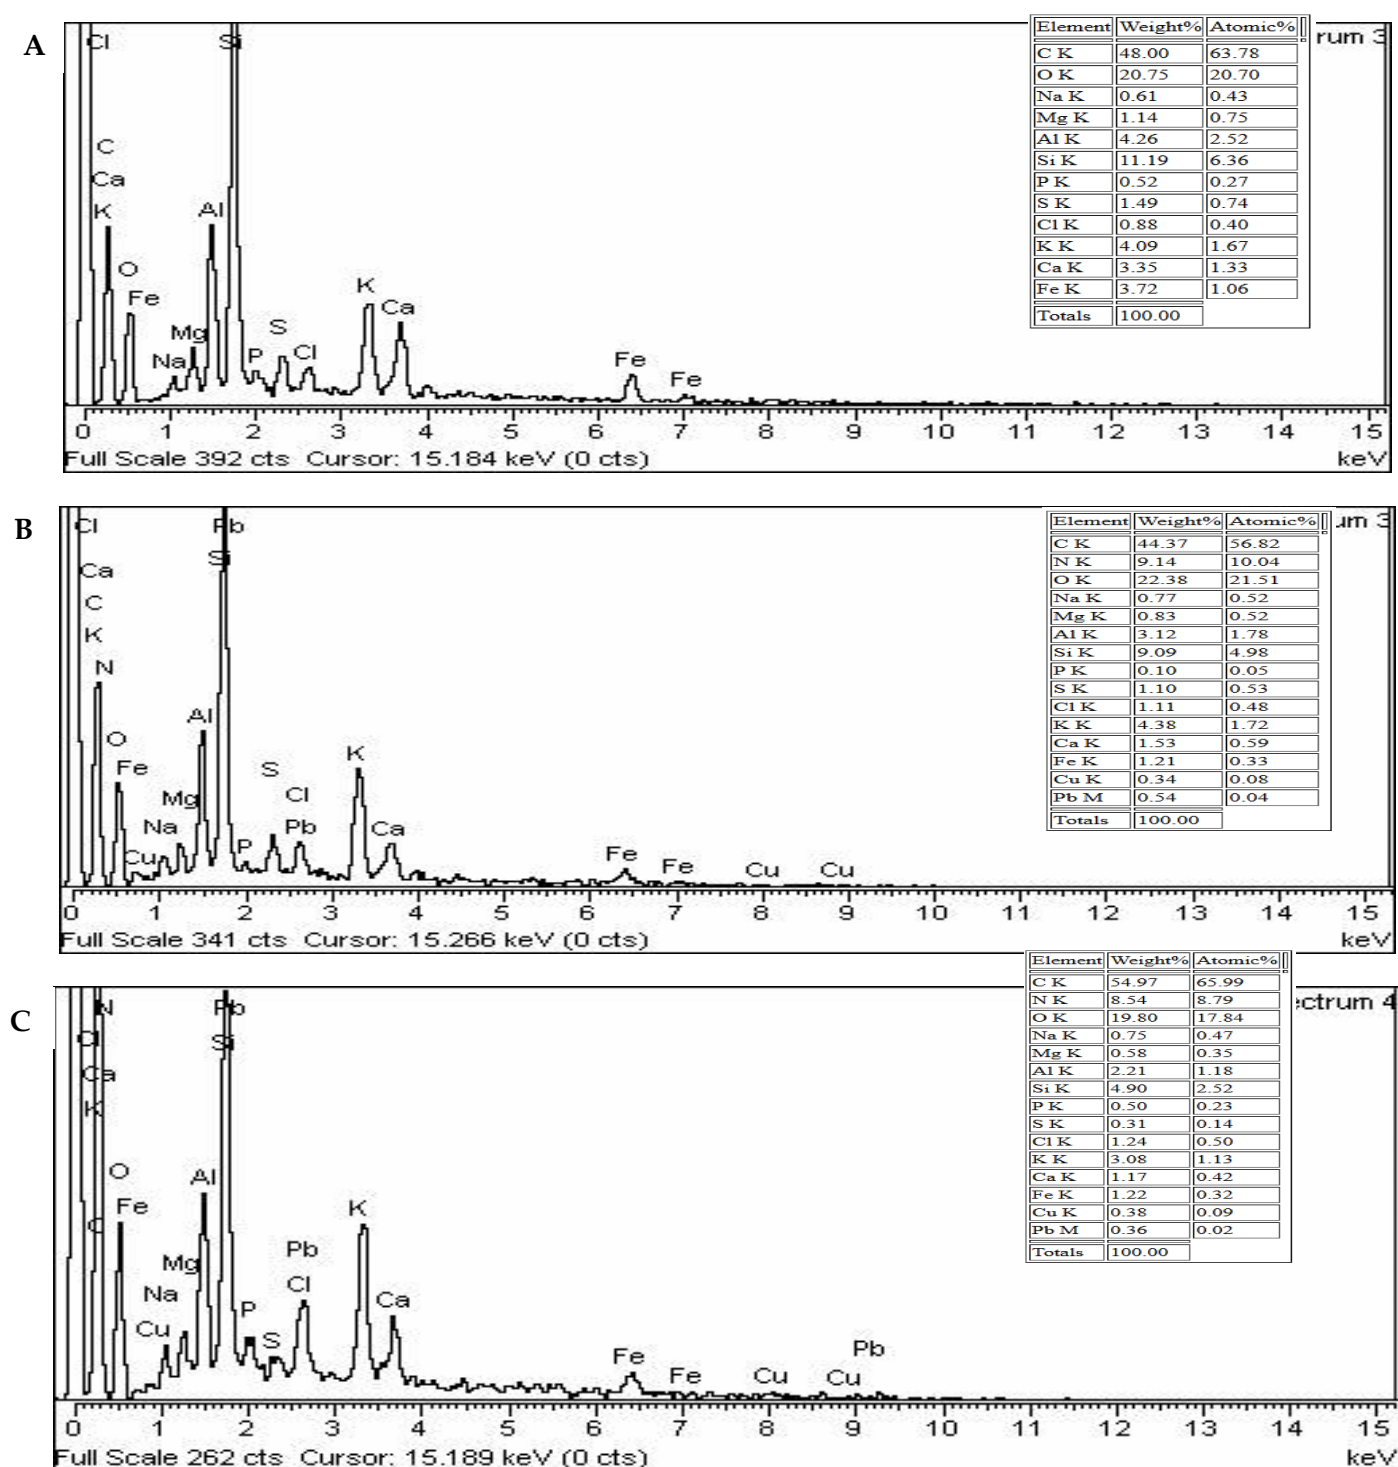

Figure S1. The energy dispersive x-ray (EDX) image of the root tissue shows the composition of elements, in absence and presence of rhizo-fungus colonization. (A) EDX of non-inoculated root of a *T. aestivum* plant. (B) EDX of the root section of *T. aestivum* plant under induced Pb and Cu stress. (C) EDX of root sample, inoculated with rhizo-fungus.
