The authors would like to correct Section 1.2 of this article [1] as follows:

The error occurs on page 3 of the PDF, 7 lines down in Section 1.2. The text currently incorrectly runs “18.847 and 18.613”. It should read “1, 8.847 and 18.613”, so there should be three numbers there, not two.

We apologize for any inconvenience caused to the readers by this mistake.
