Missing Funding

In the original paper [1], we mistakenly omitted Prince Sultan University (PSU) from the funding. PSU is one of the main funders for this paper, which was a joint effort between King Saud University, Universiti Teknologi Petronas, and Prince Sultan University. All the researchers acknowledge and appreciate the generous support from these universities. We regret this mistake.

In the original publication [1], the Funding statement was "The authors extend their appreciation to the Deputyship for Research & Innovation, Ministry of Education in Saudi Arabia for funding this research work through the project no. (IFKSUOR3–057-1)". We would like to amend it to the following: "**Funding: This research was funded by the Deputyship for Research & Innovation, Ministry of Education in Saudi Arabia under project no. (IFKSUOR3–057-1). The authors would also like to thank Prince Sultan University, Riyadh, Saudi Arabia, for their support**".

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
