

Supplement S3

Table S1. Histopathology findings of upper endoscopy in the study groups.

	Stable diabetic kidney disease, N=17	Progressive diabetic kidney disease, N=4
Hyperaemic gastropathy	4	0
Hyperaemic duodenopathy	1	0
Oesophageal candidiasis	1	0
Gastric intestinal metaplasia	3	0
Active gastritis	1	1
Chronic atrophic gastritis	1	2

Table S2. Histopathology findings of lower endoscopy in the study groups.

	Stable diabetic kidney disease, N=17	Progressive diabetic kidney disease, N=4
Polyps	1	1
Diverticulosis	1	0
Erosion of sigmoid colon	1	0
Perianal papilloma	1	0
Eosinophilic infiltration	7	1
Lymphoid follicles/ lymphoid aggregates	6	1
Lymphoplasmacytic infiltration	4	1
Lymphocyte and macrophage infiltration	3	0
Stromal fibrosis	3	0
Mononuclear cell infiltration	2	0
Tubular adenomas	1	1
Active inflammation	5	1
Active colitis	1	0
