

# PRISMA 2020 Main Checklist

## TITLE

Title	1	Identify the report as a systematic review.	Page 1, Line 2-3
-------	---	---	------------------

## ABSTRACT

Abstract	2	See the PRISMA 2020 for Abstracts checklist	
----------	---	---	--

## INTRODUCTION

Rationale	3	Describe the rationale for the review in the context of existing knowledge.	Page 2, Line 43-71
-----------	---	---	--------------------

Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	Page 3, Line 72-75
------------	---	--	--------------------

## METHODS

Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	Page 3, Line 84-92
----------------------	---	---	--------------------

Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	Page 3, Line 80-81
---------------------	---	---	--------------------

Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	Page 3, Line 80-83
-----------------	---	--	--------------------

Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	Page 4, Line 100-102
-------------------	---	--	----------------------

*(continued)*

Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	Page 4, Line 103-105
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	Page 4, Line 107-110
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	Page 3-4, Line 93-98
Study risk of bias assessment	11	Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process.	Page 4, Line 111-113
Effect measures	12	Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results.	Page 4, Line 114-126
Synthesis methods	13a	Describe the processes used to decide which studies were eligible for each synthesis (e.g. tabulating the study intervention characteristics and comparing against the planned groups for each synthesis (item 5)).	Page 4, Line 120-123

*(continued)*

	13b	Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions.	Page 4, Line 114-123
	13c	Describe any methods used to tabulate or visually display results of individual studies and syntheses.	Page 4, Line 123-126
	13d	Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used.	Page 4, Line 120-126
	13e	Describe any methods used to explore possible causes of heterogeneity among study results (e.g. subgroup analysis, meta-regression).	Page 4, Line 115-118; 121-123
	13f	Describe any sensitivity analyses conducted to assess robustness of the synthesized results.	Not applicable
Reporting bias assessment	14	Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases).	Page 4, Line 111-113
Certainty assessment	15	Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome.	Not applicable
<b>RESULTS</b>			
Study selection	16a	Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram.	Page 4-5, Line 128-131
	16b	Cite studies that might appear to meet the inclusion criteria, but which were excluded, and explain why they were excluded.	Page 5, Line 131
Study characteristics	17	Cite each included study and present its characteristics.	Page 10, Line 228, 252

*(continued)*

Risk of bias in studies	18	Present assessments of risk of bias for each included study.	Page 11, Line 282
Results of individual studies	19	For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots.	Page 7, Line 178; Page 8, Line 199; Page 11, Line 270
Results of syntheses	20a	For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies.	Page 5, Line 134-148; Page 6, Line 155-176; Page 7-8, Line 187-198; Page 9-11
	20b	Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect.	Page 5, Line 134-148; Page 6, Line 155-176; Page 7-8, Line 187-198; Page 9-11
	20c	Present results of all investigations of possible causes of heterogeneity among study results.	Page 10, Line 252
	20d	Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results.	Page 8, Line 199; Page 11, Line 270
Reporting biases	21	Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed.	Page 11-12, Line 278-290
Certainty of evidence	22	Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed.	Not applicable
<b>DISCUSSION</b>			
Discussion	23a	Provide a general interpretation of the results in the context of other evidence.	Page 12, Line 293-299
	23b	Discuss any limitations of the evidence included in the review.	Page 11, Line 280-282; Page 12, Line 301-302
	23c	Discuss any limitations of the review processes used.	Page 5, Line 128-133

*(continued)*

	23d	Discuss implications of the results for practice, policy, and future research.	Page 12-15
<b>OTHER INFORMATION</b>			
Registration and protocol	24a	Provide registration information for the review, including register name and registration number, or state that the review was not registered.	Page 3, Line 77
	24b	Indicate where the review protocol can be accessed, or state that a protocol was not prepared.	Page 3, Line 77
	24c	Describe and explain any amendments to information provided at registration or in the protocol.	Page 3, Line 77
Support	25	Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review.	Page 16, Line 427-430
Competing interests	26	Declare any competing interests of review authors.	Page 16, Line 431-434
Availability of data, code and other materials	27	Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review.	Page 15, Line 420-422

## PRISMA Abstract Checklist

### TITLE

Title	1	Identify the report as a systematic review.	Yes
-------	---	---	-----

### BACKGROUND

Objectives	2	Provide an explicit statement of the main objective(s) or question(s) the review addresses.	Yes
------------	---	---	-----

### METHODS

Eligibility criteria	3	Specify the inclusion and exclusion criteria for the review.	Yes
----------------------	---	--	-----

Information sources	4	Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched.	Yes
---------------------	---	--	-----

Risk of bias	5	Specify the methods used to assess risk of bias in the included studies.	Yes
--------------	---	--	-----

Synthesis of results	6	Specify the methods used to present and synthesize results.	Yes
----------------------	---	---	-----

### RESULTS

Included studies	7	Give the total number of included studies and participants and summarise relevant characteristics of studies.	Yes
------------------	---	---	-----

Synthesis of results	8	Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured).	Yes
----------------------	---	---	-----

### DISCUSSION

Limitations of evidence	9	Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision).	Yes
-------------------------	---	---	-----

Interpretation	10	Provide a general interpretation of the results and important implications.	Yes
----------------	----	---	-----

### OTHER

Funding	11	Specify the primary source of funding for the review.	Yes
---------	----	---	-----

Registration	12	Provide the register name and registration number.	Yes
--------------	----	--	-----
