Extracted ion chromatograms (EIC) MPs obtained from samples 1*-4*

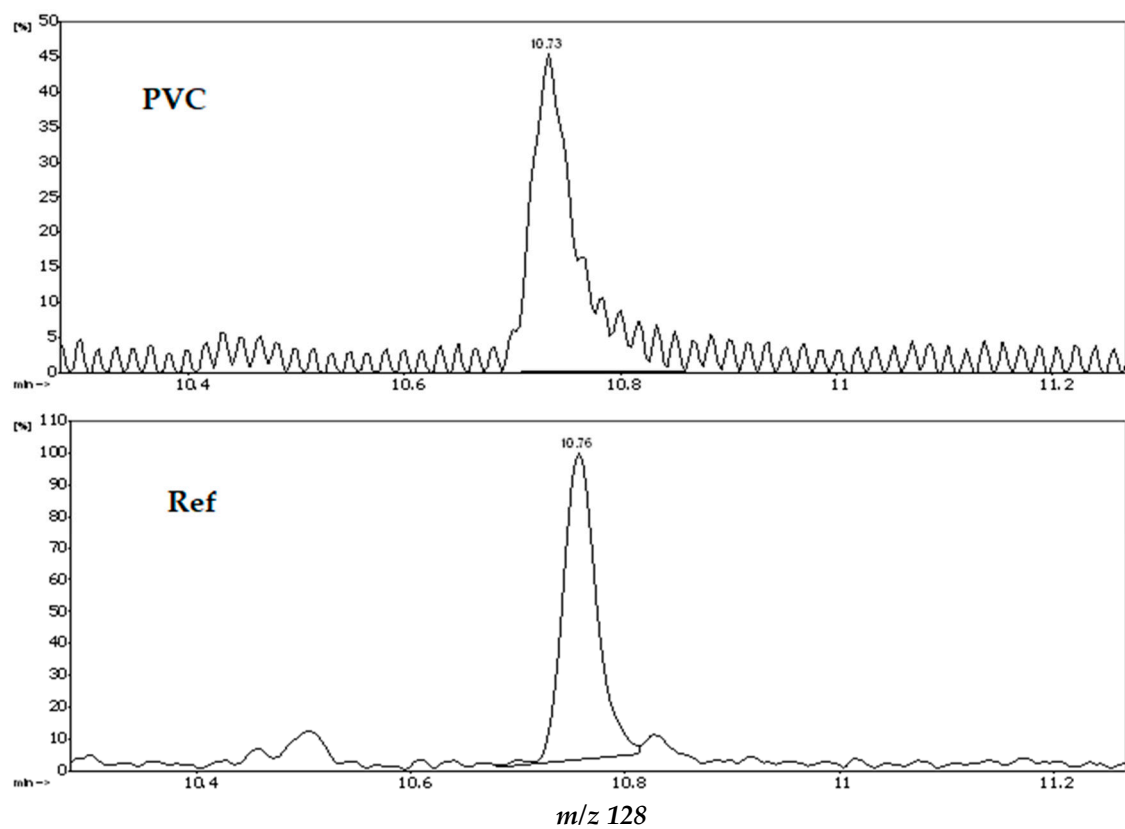

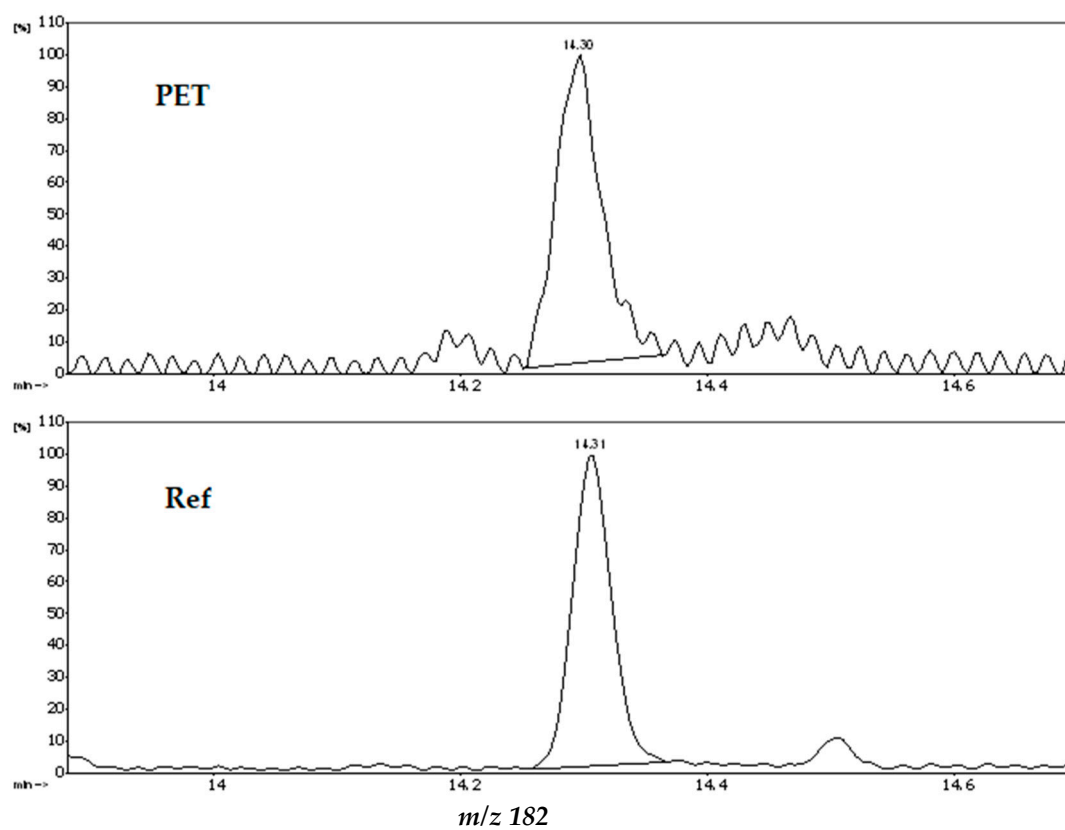

Figure S-1. Extracted ion chromatograms (EIC) MPs obtained from sample 1* and compared with characteristic indicator ions from the Standard

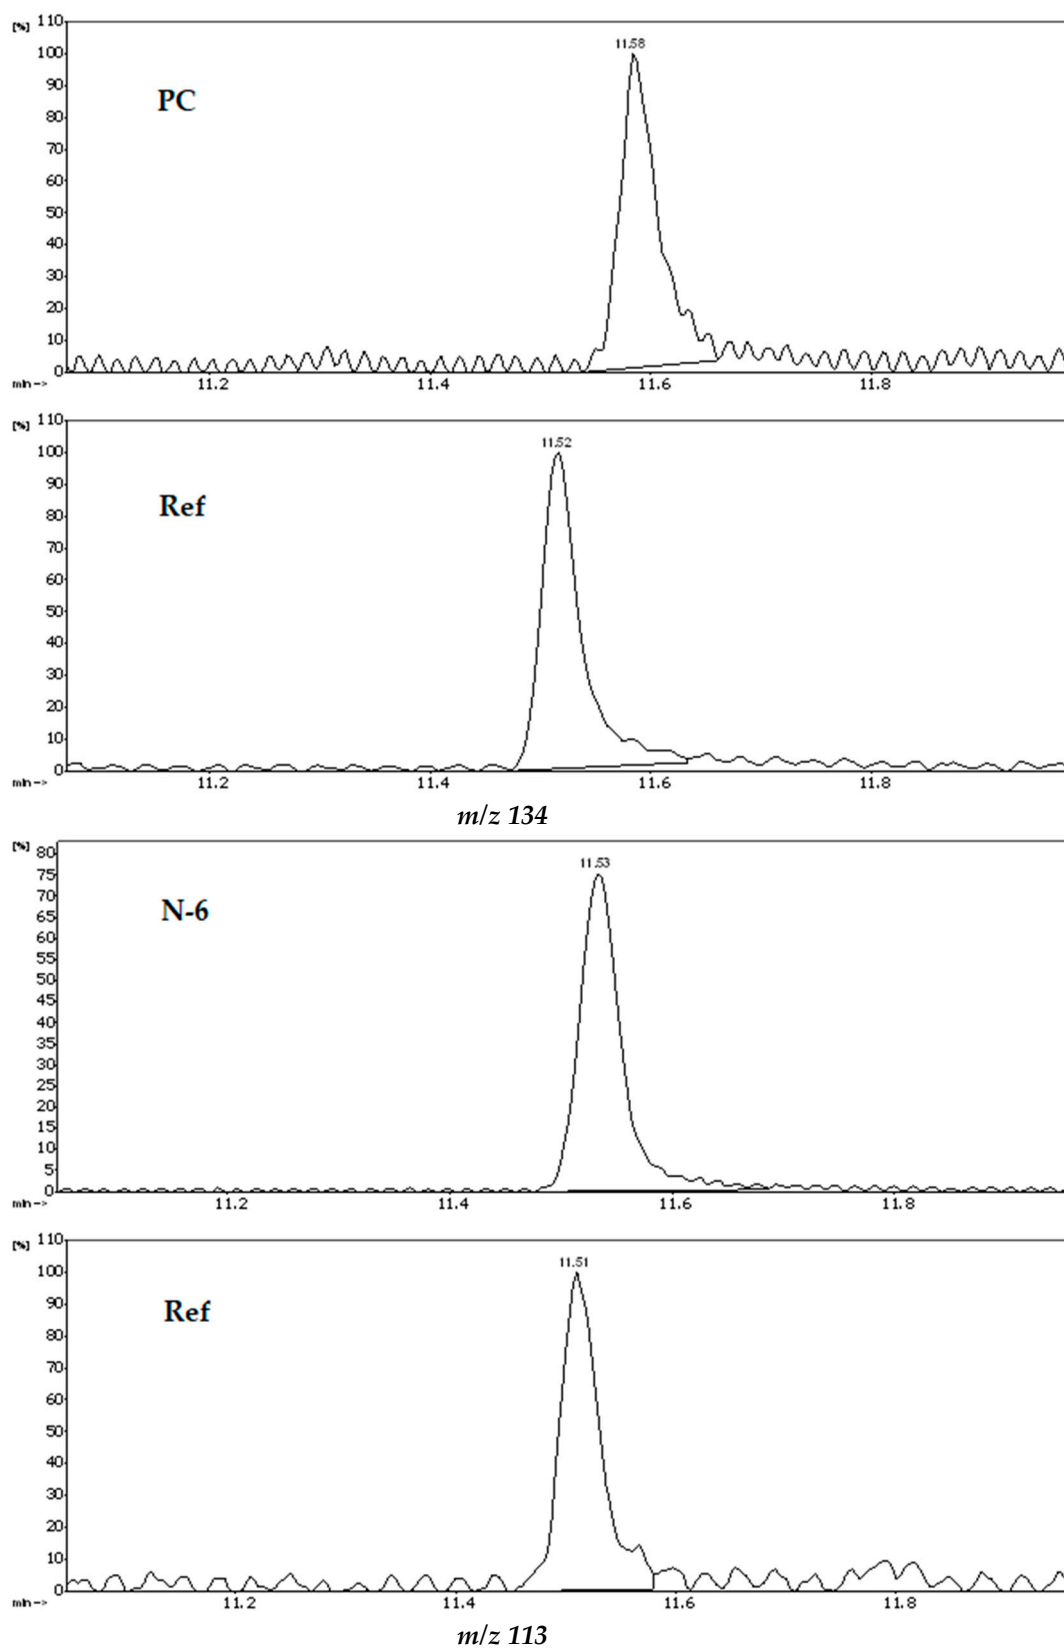

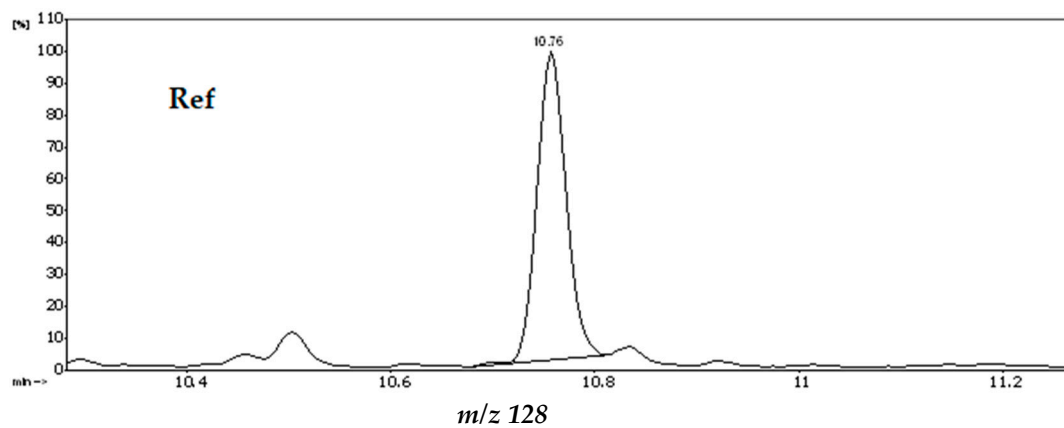

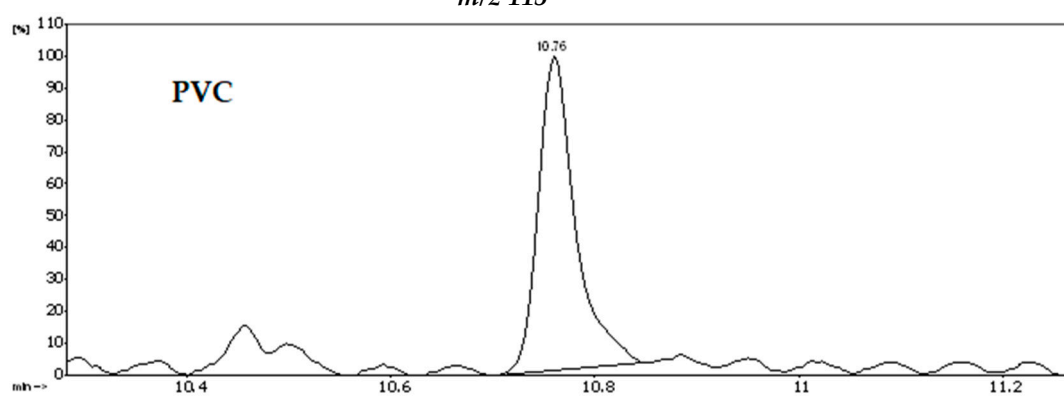

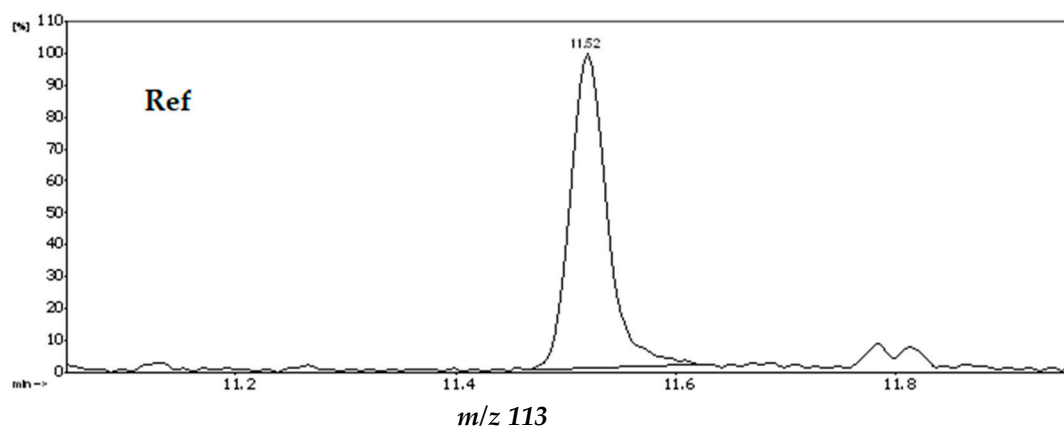

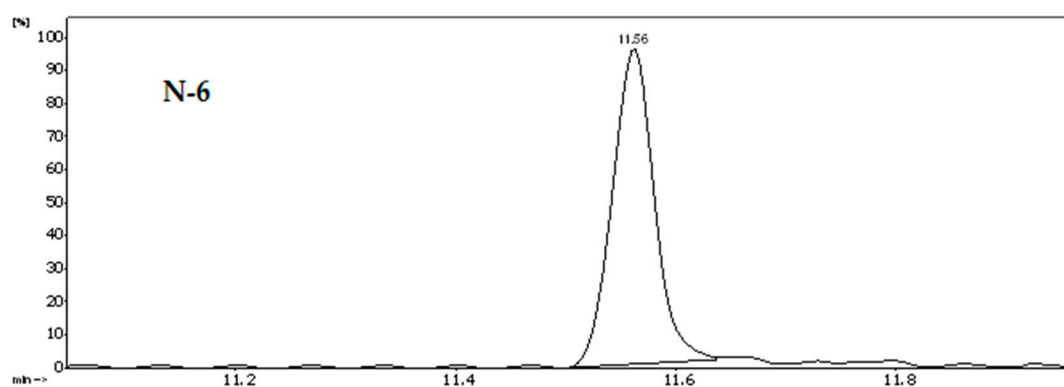

Figure S-2. Extracted ion chromatograms (EIC) MPs obtained from sample 2* and compared with the characteristic indicator ions from the Standard.

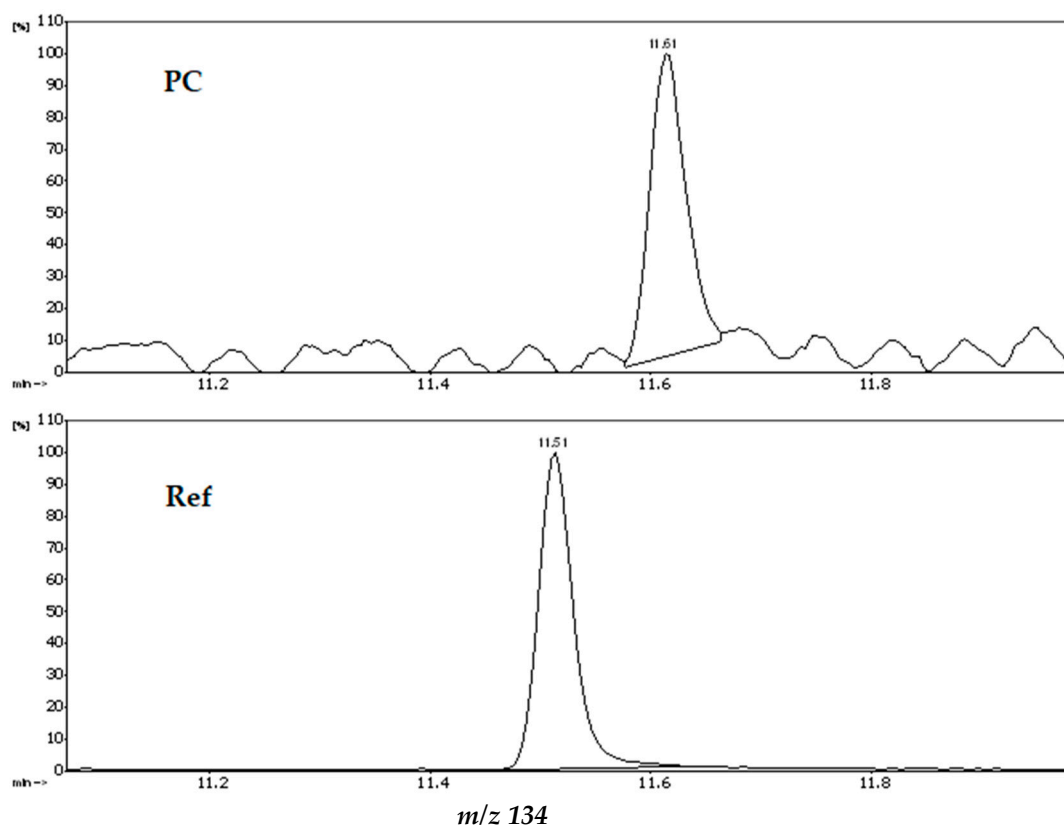

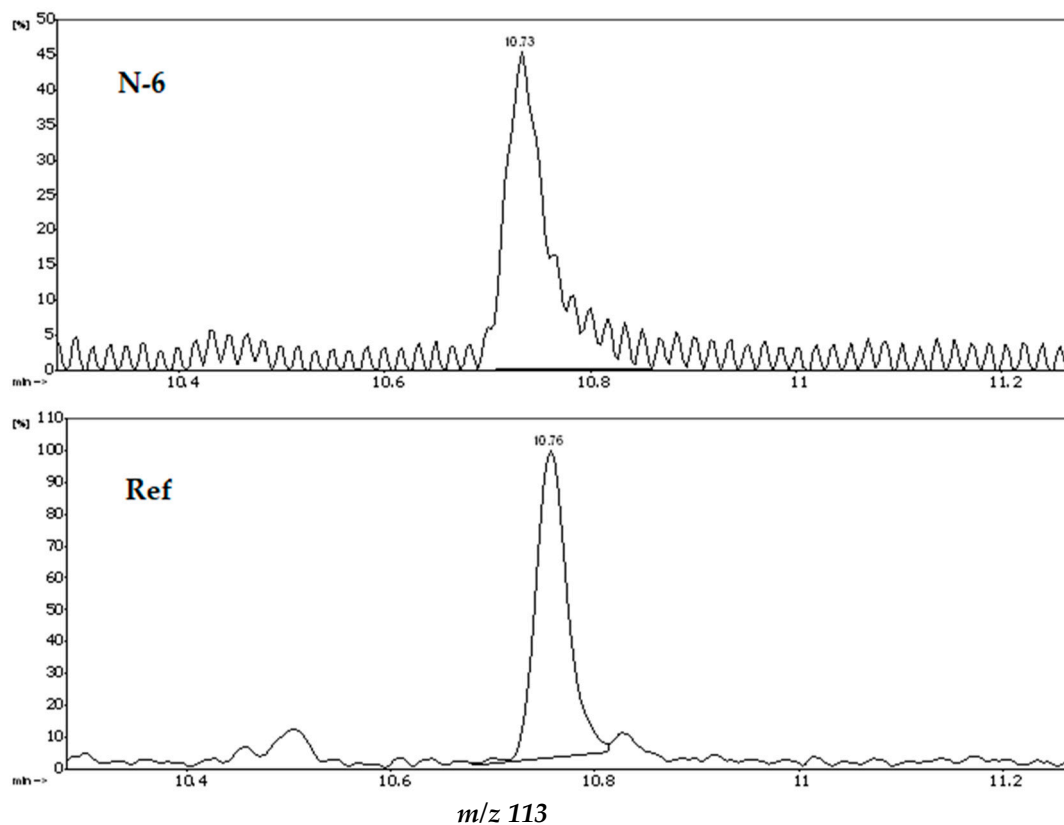

Figure S-3. Extracted ion chromatograms (EIC) MPs obtained from sample 3* and compared with the characteristic indicator ions from the Standard.

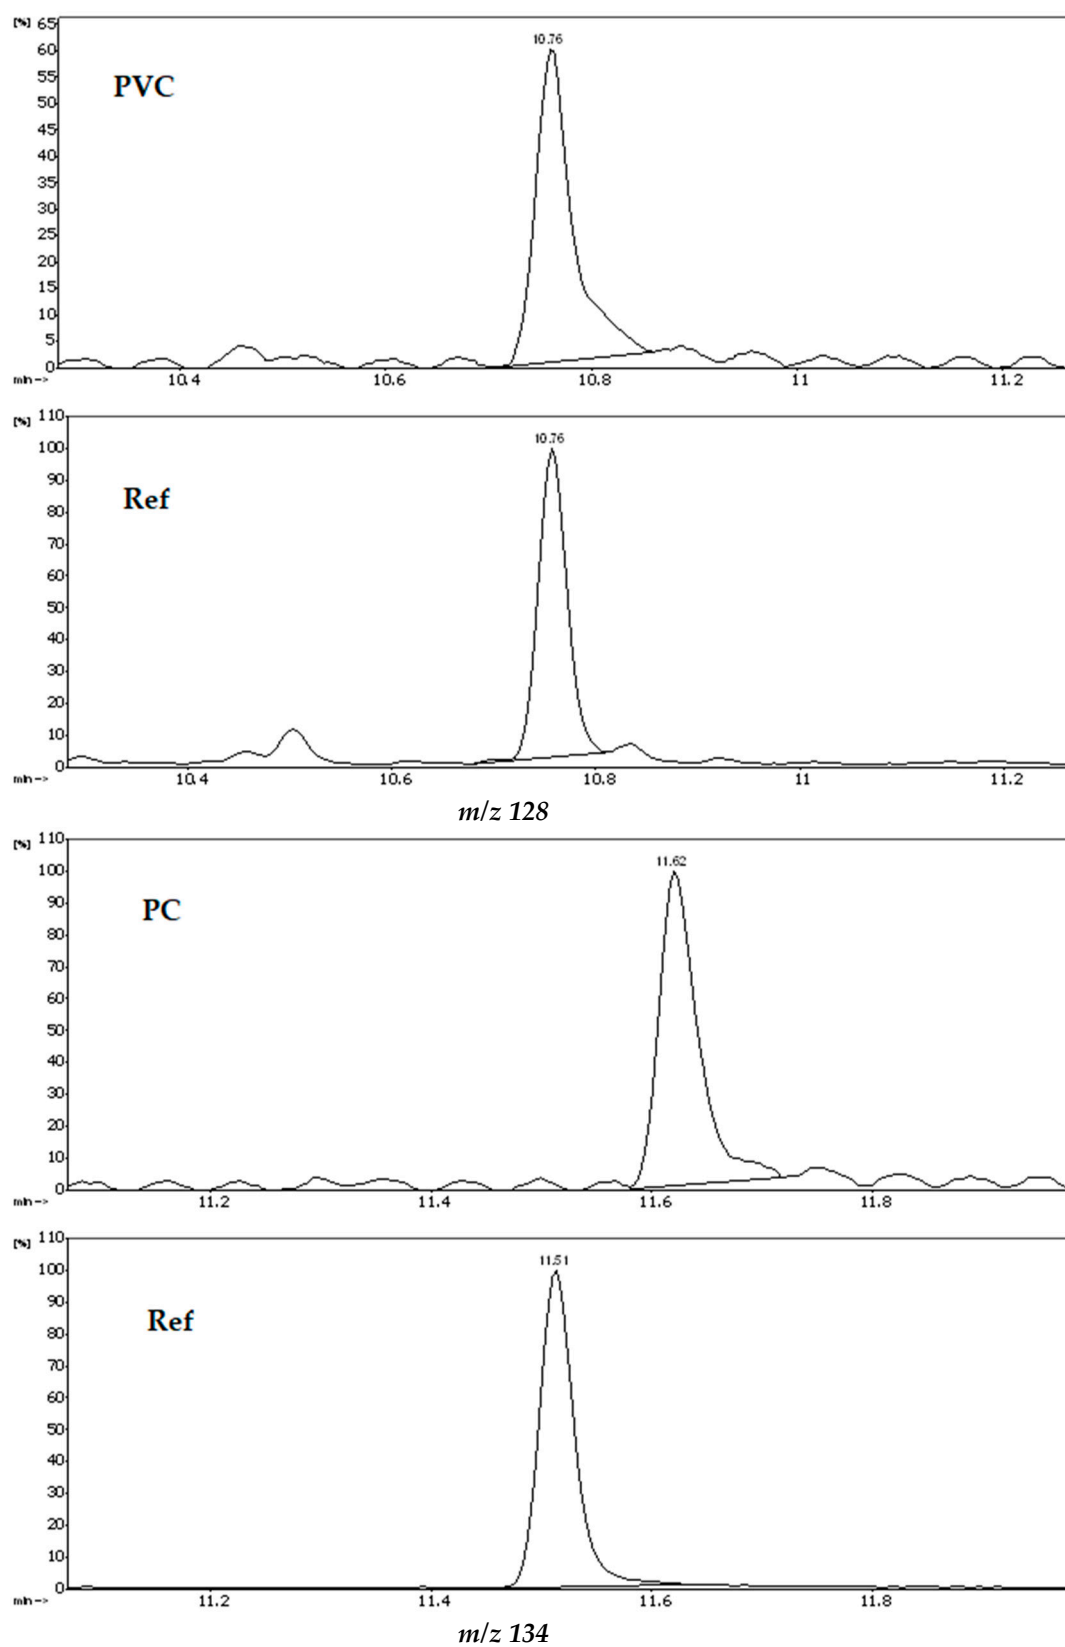

Figure S-4. Extracted ion chromatograms (EIC) MPs obtained from sample 4* and compared with the characteristic indicator ions from the Standard.
