

Figure S1: SDS-PAGE analysis of supernatants of MPC dispersions non-reducing (A) and reducing (B) of 0% κ -carrageenan (1st row), non-reducing (C) and reducing (D) of 0.01% κ -carrageenan (2nd row), non-reducing (E) and reducing (F) of 0.03% κ -carrageenan (3rd row) and non-reducing (G) and reducing (H) of 0.05% κ -carrageenan (4th row) from left to right. Lane sequence: control (25-0)/90-0/90-100/121-0/-121-100/121-1000 from left to right.
