Supplier	Date of purchase	Cabbage variety	Replicate	Grower	Origin of cultivation	cabbage type	soil type	fertilization	Certification mark	Size and shape	Description	weight [kg]	Harvest/season	no term stored cabbbia	Storage conditions before food retailer	Storage at food retailer	Storage conditions at food retailer
Table S1: Overview of white and red cabbages purchased from three different food retailers or harvested freshly from the field (Grollbeeren, B). The origin and cultivation background of commercial cabbages was investigated by interrogating service staff at supermarkets and by contacting growers.
