

Table S1. Grading of ocular irritation by Draize irritation test in rabbits.

Conjunctiva	Control	CRV Formulations	
		CRV-ISG	Optimized CS-ISG
Degree of redness	0	0	0
Degree of swelling	0	0	0
Secretion (discharge)	0	0	0

Degree of swelling, discharge and redness were grade on scale from 0 to 3. Score 0 indicates no redness, inflammation, or excessive tearing; 1 indicates mild redness with inflammation and minimal tears; 2 indicates moderate redness with considerable inflammation and significant tearing; and 3 indicates severe redness with severe inflammation and extensive tearing.
