

Special Issue

2019 HYPOTHESIS XIV

Message from the Guest Editors

This Special Issue is devoted to the fourteenth edition of the Hydrogen Power Theoretical and Engineering Solutions International Symposium (HYPOTHESIS XIV). The motto of this edition of HYPOTHESIS is “Smart technologies for green life” and not for nothing ITAIPU has been chosen as venue of this edition. TAIPU is the world's largest hydroelectric generator and a site where many universities are hosted and which are developing technologies based on renewables. We would be honored if you participate with a scientific paper in the *ChemEngineering* Special Issue devoted to HYPOTHESIS XIV.

Guest Editors

Dr. Massimiliano Lo Faro

Dr. Pietro Staiti

Dr. Orazio Di Blasi

Dr. Sabrina Campagna Zignani

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Alírio E. Rodrigues

Laboratory of Separation and Reaction Engineering - Laboratory of Catalysis and Materials (LSRE-LCM), Department of Chemical Engineering, Faculty of Engineering, University of Porto, 4200-465 Porto, Portugal

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Chemical) / CiteScore - Q2 (General Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 7.6 days (median values for papers published in this journal in the first half of 2024).
