Message from the Editor-in-Chief

Acoustics (ISSN 2624-599X) is dedicated to the scientific dissemination of rigorously peer-reviewed publications regarding acoustics. Being open access and online available, it is able to offer excellent visibility and a fast processing time from submission to publication. The journal aims to provide an inter-disciplinary forum to showcase state-of-the-art research challenges on acoustics science and engineering.

Acoustics publishes full research papers, communications and review articles. There is no restriction on the length of papers or charge for extra colors, etc. Electronic files supplying details of calculations and experimental procedures as well as sound files can be deposited as supplementary materials.

Editor-in-Chief

Prof. Dr. Jian Kang

Aims

Acoustics (ISSN 2624-599X) is dedicated to the scientific dissemination of rigorously peer-reviewed publications regarding acoustics. The journal aims to provide an interdisciplinary forum to showcase state-of-the-art research challenges on acoustics science and engineering. *Acoustics* publishes various types of papers, including technical notes, case reports, and project reports on analysis of acoustic engineering projects. There is no restriction on the maximum length of the papers, however, the full experimental details must be provided so that results can be reproduced. In addition, one unique feature of this journal is:

- Electronic files supplying details of calculations and experimental procedures as well as sound and video files can be deposited as supplementary materials.

Scope

- Noise and noise control
- Room and building acoustics
- Acoustic materials and metamaterials
- Engineering acoustics
- Structural acoustics and vibration
- Environmental acoustics and soundscape
- Linear and nonlinear acoustics
- Ultrasonics
- Aeroacoustics
- Computational acoustics, modeling
- Virtual acoustics
- Audio engineering
- Speech, voice recognition and control
- Underwater acoustics
- Psychoacoustics

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures, or use of colors

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), and other databases

Rapid Publication

A first decision is provided to authors approximately 19.4 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024)
