## Selected Papers from IWSHM 2019

### Message from the Guest Editors

*Aerospace* journal is cooperating with the 12th International Workshop on Structural Health Monitoring (IWSHM). Authors of outstanding papers presented at the Workshop are invited to submit extended versions of their work to the Special Issue for publication.

Manuscripts are sought that report new research in the field of aerospace on, but not limited to:

- Sensors/Actuators Aerial Sensing: Robotic and UAV platforms for SHM and maintenance intervention
- Multifunctional Materials and Structures
- Prognostics/Health Management/Safety Assurance
- Cyber-physical systems for aerospace SHM
- Implementation/Validation/Certification Applications
- Application to Transportation Systems: Aircraft and space vehicles, rotorcraft, satellites, space
- Autonomous Systems: Drones, UAVs, self-driving cars, robotics, energy management systems

## About the Journal

### Message from the Editor-in-Chief

You are welcome to contribute a research article or a comprehensive review for consideration and publication in *Aerospace* (ISSN 2226-4310), an on-line, open access journal.

*Aerospace* adheres to rigorous peer-review as well as editorial processes and publishes high quality manuscripts that address both the fundamentals and applications of aeronautics and astronautics. Our goal is to enable rapid dissemination of high impact works to the scientific community.
